Research Assistant, Cognitive Development Lab, Stanford Psychology Department
Volunteer, Geropsychiatric Ward, Menlo Park VA Hospital
Assistant Coach, Girls' Varsity Lacrosse, The Menlo School
Studied art history, and Italian language through Syracuse University in Florence, Italy

Thesis: "Monitoring Shifts in Others' Auditory Attention"

EXPERIENCE

DEPARTMENT OF BIOETHICS, CLINICAL CENTER, NATIONAL INSTITUTES OF HEALTH,
Bethesda, MD

Law Fellow

September 2008 – December 2008

Research legal and ethical issues related to treatment access to experimental drugs, and co-write paper on the same issue.

GOODWIN PROCTER LLP, Washington, DC

Summer Associate

July 2008 – August 2008

Conducted legal research regarding food and drug and pro bono matters. Wrote memos and summarized work for supervising lawyers and clients.

OFFICE OF CHIEF COUNSEL, FOOD & DRUG ADMINISTRATION, Rockville, MD

Summer Intern

May 2008 – July 2008

Conducted legal research regarding various food and drug law issues. Wrote memos and summarized work for supervising lawyers.

THE HONORABLE EDWARD M. CHEN, U.S. DISTRICT COURT, N.D. CAL., San Francisco, CA

Judicial Extern

June 2007 – August 2007

Performed legal research on a variety of substantive and procedural civil issues. Summarized research and conclusions in bench memos. Drafted orders.

PROGRAM IN MEDICAL ETHICS, UCSF, San Francisco, CA

Program Coordinator

August 2004 – June 2006

Administered career development award program for junior faculty conducting bioethics research. Planned meetings and managed award application and review process. Coordinated UCSF human gamete, embryo and stem cell research committee's review of research protocols. Communicated the committee's requests and results of its review to other committees and researchers. Researched current topics in bioethics including human embryonic stem cell research policies. Co-authored and edited papers.

Research Assistant

July 2002 – July 2004

Researched physician-patient communication. Conducted semi-structured qualitative interviews with patients. Analyzed data. Co-wrote and edited papers, grant proposals, and IRB protocols.
